With **climate change** a major concern of federal, state and local government, Southern California is poised to chart a different economic future with **clean energy** and **transportation** as driving forces.

Join an esteemed panel of state and local experts on **Thursday, June 24, at 2 p.m.** to learn more about California's current state of **clean energy** and what we can expect the future to hold.

**This Zoom event is free and the public is encouraged to attend.**
